JULY.

When the scarlet cardinal tells
Her dreams to the dragon fly,
And the lazy breeze makes a nest in the trees
And murmurs a lullaby,
It is July.

When the tangled cobweb pulls
The corn flower's blue cap awry,
And the lilies tall lean over the wall
To bow to the butterfly,
It is July.

When the heat like a mist-veil floats,
And poppies flame in the rye,
And the silver note in the streamlet's throat
Has softened almost to a sigh,
It is July.

When the hours are so that Time
Forgets them and lets them lie
'Neath petals pink till the night stars wink
At the sunset in the sky,
It is July.

When each finger-post by the way
Says that Slumbertown is nigh;
When the grass is tall, and the roses fall,
And nobody wonders why,
It is July.

Registration of Births, Marriages and Deaths.

The Department of Agriculture and Statistics for Manitoba having determined to strictly enforce the Act respecting the registration of births, marriages and deaths, the Deputy Minister, Mr. Acton Burrows, has issued circulars to the Division Registrars, clergy and medical practitioners throughout the Province, calling their attention to its provisions.

As the enforcement of the Act will require action on the part of the householders, the following summary of its chief provisions has been prepared:

The Minister of Agriculture and Statistics as Registrar-General, is empowered to enforce the Act.

DIVISION REGISTRARS.

Each municipality, city and incorporated town is a registration division, the respective clerks being division registrars.

They are supplied with books and forms by the Registrar-General, which they are required to keep in a safe place, to make entries as specified in the Act, and on or before the fifteenth of January and July in each year to send to the Registrar-General, duly certified, the original entries of the births, marriages and deaths of the previous six months.

They are entitled to receive from their respective municipalities a fee of ten cents for each birth, marriage and death registered by them.

The are liable to a fine of $50 for refusing or neglecting to perform their duties.

BIRTHS.

The father of any child born in this Province, or in case of his death or absence, the mother, or in case of the death or inability of both parents, any person standing in the place of the parents, or if none such there be, then the occupier of the house or tenement in which to his knowledge such child was born, or the nurse present at the birth, shall, within thirty days from the date of such birth, give notice thereof to the Division Registrar of the division in which such child was born, giving as far as possible the particulars required by the Registrar-General from time to time, which particulars shall be entered by the Division Registrar in his book.

DUTY OF CLERGY.

Every clergyman or other person authorized to marry, or perform funeral services in Manitoba, shall keep a register showing the persons whom he has married, or who have died within his cure and belonging to his congregation.

Every clergyman or other person authorized to celebrate marriages, shall be required to report every marriage he celebrates to the registrar of the division within which the marriage is celebrated, within ninety days, with the particulars required by schedule C, appended to the Act, and in order the better to enable him to make such report, he shall be furnished by the Division Registrar of the division in which he resides with blank forms containing the particulars required.

Every minister or other person who buries or perfroms any service for the burial of any body, unless he has received a certificate under the hand of the registrar of the division in which the death took place, that the particulars of the death have been duly registered, shall make a return of the death according to schedule C to the Act, to the registrar of the division in which the death took place, within one month after the burial.

NOTICES OF DEATH.

The occupier of the house in which a death takes place, or if the occupier be the person who has died, then some one of the persons residing in the house in which the death took place, or if such death has not taken place within a house, then any person present at the death or having any knowledge of the circumstances attending it, or the coroner who attended any inquest held on such person, shall, before the interment of the body, supply to the Division Registrar of the division in which such death took place, according to his or her knowledge or belief, all the particulars required to be registered touching such death, by the form provided the Act.

DUTIES OF DOCTORS

Every duly qualified medical practitioner, who was last in attendance during the last illness of any person, shall, within one month after having notice or knowledge of the death of such person, transmit to the Division Registrar of the division in which the death took place, a certificate under his signature of the cause of death, according to the form of schedule E appended to the Act, and it shall be the duty of every medical practitioner to apply to the Division Registrar for blank forms, and upon the receipt of the certificate from the medical practitioner, by the Divison Registrar, he shall make the entry as to the cause of death, according to the fact stated in the certificate.

PENALTIES.

Any person making false statements is liable to a fine of $100, and provision is also made for fining persons who neglect to comply with the various provisions of the Act.

Spoopendyke Starts a Fire.

"Mr. Spoopendyke!" called Mrs. Spoopendyke from the head of the stairs, the other morning after the sardines had been disposed of. "Mr. Spoopendyke!" she called in a shrill falsetto. The only answer from the bed was a loud snore.

"Mr. Spoo——"

"Well, holler again!" yelled Spoopendyke, springing up in bed. "What ails you? Think I'm deaf out of one ear, and can't hear out of the other? Think I——"

"Why, no, my dear, but I thought you might be asleep. You know I called you twice before you answered. I didn't think you heard me."

"Did hear you, too, but I thought it was a fishhorn. All it would take to make a steam-whistle of you would be a locomotive to put on you. Do you want anything?"

"The fire in the furnace has gone out," said Mrs. S.

"Oh, has it?" yelled Mr. S., and laid his nose against the cold wall. What has it gone out for—to take a walk? 'Spose I'm going to get up and start it at this time of night?"

"But it's six o'clock, and I've been up an hour."

Mr. Spoopendyke bounced out of bed, caught up his coat and tried to get his feet into the sleeves.

Mrs. S. went downstairs to get the kindling. Presently Mr. S. came down and stalked to the woodshed. A few minutes after he called to his wife to know where she kept her saw.

"Why, where did you put it when you had it last?"

"Oh, I dug a hole in the garden and buried it, then I planted a cabbage over its grave. Don't think I swallowed it do you? Oh, you've got it have you? Where did you get it? Here, give it to me," and he grabbed it and sawed his fingers across the teeth so see how sharp it was. Every tooth left its mark. He dropped it on his toes with a yell of despair, and howled and danced around the room as if he had a small dog at his heels.

"Did you hurt yourself, dear?" asked Mrs. S. sympathetically.

"No, of course it didn't hurt. I'm just dancing to keep warm, just trying to work off my spirits, you know.

And with a terrible grin he grabbed the saw and started to file it. Just as the family was sitting down to breakfast Mr. S. walked in with a basket of charcoal and his saw.

"Come into breakfast," said his wife; "I have started the fire."

"Why, have you, my dear? Where did you get the kindling?"

"I split a board I found in the barn."

"The deuce you did; you'll ruin me soon. Didn't you know that was black walnut and I paid a dollar for it."

He then set down and took a piece of beef, and allowed it to quiet him.

A Railway Row.

TWO GENERALS DECLARE WAR, BUT THE BATTLE IS INDEFINITELY POSTPONED.

It will be remembered that some time ago Gen. Rosser, late Chief Engineer of the C. P. R., was arrested upon a charge of having, after the close of his term of office, criminally misappropriated to his own use certain plans and other papers belonging to the Company. The charge fell through for want of evidence, no prosecutor putting in an appearance, and Gen. Rosser, naturally indignant, has since entertained anything but brotherly feeling toward Gen. VanHorne, general manager of the C. P. R. Last evening the twain accidentally met in the Manitoba Club, when their slumbering anger broke out in words, and the words would have ended in more than blows had it not been for the interference of a number of peacemakers. The matter became so serious that both gentlemen drew pistols, and it looked as though the bombardment of Alexandria was about to be repeated upon a small scale, but the better counsels of cooler heads prevailed, and the belligerents were separated before their passions were cooled in gore. It is a matter for rejoicing that what threatened to be a tragical affray had so peaceful an ending, as both gentlemen have hosts of friends, to whom any serious result would have been a source of the deepest regret.—*Winnipeg Sun.*

It is rumored that Dr. Schultz is likely to be the coming Lieutenat-Governor of Manitoba. He is also spoken of as a coming new senator for that Province.

Three vacancies have now to be filled in the Local Legislature, that caused by the election of A. W. Ross, Esq., to the Commons for Lisgar, formerly representing Springfield, and that of Westbourne, made vacant by the appointment of Atty.-Gen. Walker to the Judgeship of the Western Judicial District. M. Goulet, member for La Vavandry, has resigned, on his appointment as Registrar for the Registration Division of Loretto.

It has been determined to have the boundary question decided in the first place by an ordinary tribunal of the country, with the right to appeal to the Supreme Court here, which, if necessary for the appeal, can be taken to the Judicial Committee of the Privy Council in England. Steps will be adopted to enable necessary action to be taken in courts of law in Ontario. It is understood this duty will be entrusted to the Hon. John O'Connor, late Postmaster-General, who will be aided by counsel be employed specially for the purpose.

MINNEDOSA MATTERS.

MINNEDOSA, July 4th, 1882.

Weather lately has been wet and cool generally.

Two yoke of oxen and a large 14 inch scrub breaker plow are excellent materials for breaking the stubborn soil, as it turns over both soil and brushes with great rapidity and efficiency.

We now have a tri-weekly mail which is a great convenience, and for which we are thankful also for an obliging and highly efficient Postmaster, Mr. T. M. Boyd.

Mr. G. Shaver has been engaged as Teacher in the McTavish section west of the village.

A resident Episcopalian minister is now for the first time stationed here, Rev. Mr. Blatchford, which will be a great boone, it is to be hoped, to the people of that church. Services are held.

Messrs. J. Catcher & Brandon, Beddome, are putting up neat frame houses each on their respective homesteads.

Dominion day was celebrated here with the usual amount of enthusiasm. The circular race courses west of the village was the chief point of attraction for "fair women and brave men," where riders on horseback and in vehicles madly surged to and fro, amidst the ringing of a bell from the judges' standard, the loud cries of the betters stakmoney on the different jockies. "All went merry as a marriage bell," when hark! what dread sounds come floating o'er the summer breezes? Oaths, blows, threats, produced by the maddening effects of that powerful foe to man, —strong drink—which had been provided illegally by an old offender, and which arrayed one gladiator in the arena against another. A. E. Fisher, Esq., J. P., with Mr. E. Simms, were soon on the spot tearing the combatants apart, and arresting others with difficulty owing to the frenzied state they were in imbibing so deeply.

A sumptuous repast was provided by the Methodist church on the occasion, with ice cream, &c., at the low rate of 35 cents each, single ticket. Proceeds of which came to $75.00.

A cricket match was also placed between Newdale and Minnedosa.

Also, foot races, croquet and other games.

PLUM CREEK.

CHURCH OF ENGLAND.—A meeting of the members of the Church of England was held here last week, when the following office-bearers were appointed:—Mr. Wenman and K. B. Kirchhoffer, wardens; A. J. Jameson, A. Heatherington, M. Bryan and Dr. Stoyte, sidesmen; J. K. Oswald, sec.-treas. Mr. J. Wenman was appointed lay-reader by His Lordship the Bishop for the district.

Winnipeg assessment this year will be about thirty millions. Last year it was nine millions.

Capt. Scott has been declared elected to the Local Legislature for Winnipeg by 106 majority.

The Bloods and Crees of the North are doing their level best to exterminate each other, qut they shoot at long range and from under cover.

The plant for the Selkirk Herald has arrived, and Messrs. Campbell & Gemmell expect to issue their first paper on the 21st.

A public school meeting held at Portage la Prairie has authorized the trustees to raise by debentures $30,000 to erect a new central school.

SHOULD AND DOES.—"Who shall decide when doctors disagree?" We don't know who should, but we know that the undertakes generally does.

Mr. Stuart, of Cavers & Stuart, merchants, Deloraine, has been receiving goods at the depot the past two days for the business of his firm in the southern hub.

Major (to his soldiers)—"You claim to be soldiers? You are not even jackasses; but depend on it I shall yet teach you sense"—(noticing the long faces of the officers)—"except, of course, the officers."

A preacher in Tennessee tried to establish a church in which there should be no members that used tobacco or any beverage but water, and his only congregation was an old woman who chewed slippery-elm and believed in catnip tea for measles.

The Blood Indians are reported to have created quite a little excitement at Fort Walsh recently. A party of 150 warriors rode through the street, fired their guns, and compelled the residents to seek cover.

The Canadian Pacific directors have expressed their willingness to expend $1,000,000 upon the central station in Montreal if the city acts liberally in giving a right of way, and donate some property now of no use to the corporation. Plans are already matured for the project.

The adoption of the prohibition amendment by an immense majority in Iowa is likely to give fresh impetus to the agitation for the same principle in others of the Western States. Kansas is already prohibitionist, at least in name, and Indiana, it is said, will be the next point to attack. The temperance people of Michigan and Wisconsin are also discussing the advisability of submitting the prohibition amendment in those States; in Michigan they have even nominated a state ticket. In Canada the prohibition agitation has been stayed during the past few months, pending the decision of the Privy Council as to the constitutionality of the Scott Act, but that body having upheld the validity of that act, we may expect shortly to see a renewal of operations, at any rate in Ontario and the Maritime Provinces.

THE BRANDON SUN.

BRANDON, MANITOBA, JULY 20 1882.

THE CITY'S HEALTH AND BEAUTY.

We are pleased to see that Chief McMillan is taking active steps to have removed from the city that mass of filth that has accumulated in the back yards, lanes, and on the streets during the past winter and spring. Notice has been given those principally concerned, giving them twenty-four hours to have the yards cleared up, or otherwise they will suffer the penalty of the law. It is to be hoped that every one will assist the Health Inspector in this matter and whatever effort is required by any one to make our young city present a neat and clean appearance, let it be put forth.

Another cause for grievance has been the building of houses and the pitching of tents upon streets and lanes, in many cases blocking the same up entirely. It is pleasing to know that the Board of Works, in order to properly carry out the system of improvement laid down, also in consideration of the rights of the property holders, has, by notice, ordered their removal within two weeks and we might add here for the benefit of those having obstructions on the streets or lanes that unless removed by that time they will be promptly dealt with, as from the chairman of the board we learn that it is the intention of the members thereof to meet this grievance without any fear or favor.

RESCINDED.

We are pleased to learn that the Government has seen fit to rescind the order withdrawing from the market all even numbered sections south of the railway belt. It is to be hoped that they will soon adopt some definite policy with regard to these lands, and show by their actions, that they purpose to make this the country for the people, and not for the Government or a few mammoth speculating companies, whose aim, no doubt is to have the country settled, but only upon such plans as they propose. Even now it is scarcely safe for a man to go out any distance from the land office in search for land. On his return he may find that by some order-in-council there is no land to be had, or that it is set apart for the benefit of the Duke of Manchester or some other colonization scheme.

THE APPOINTMENT OF JUDGE WALKER.

Elsewhere it will be seen that Attorney-General Walker has been appointed to the Judgeship of this County, and as this is the first step towards practically giving us a Court in this District, the motion of Ald. Fortier, at the meeting of the City Council on Thursday evening was most opportune, and it is to be hoped that His Honor will soon find it convenient to come amongst us and make one of ourselves. He will find that everything will be made agreeable here for him, and that the citizens will join in giving him a hearty welcome. We have in previous issues laid the matter of the County Court before our readers and brought it to the notice of the authorities, at the same time showing that while no outside place could set forth one claim for its establishment we had scores of them. A committee also met the Premier and members of the Government in connection with its location, and from them received an assurance that as soon as the judge was appointed the Court would at any rate be temporarily located here, so we may expect in a short time to hear of the Judge having taken up his resdence in the city of Brandon. With the citizens of Brandon, we have much pleasure in extending our congratulations to the newly-made judge, and wish His Honor a long life and a happy one, and may the same blessings extend to his good lady, Mrs. Judge Walker.

THE REPRESSION OF CRIME.

One of the greatest obstacles that western towns and cities as a rule have to meet with, is a spirit of lawlessness that a certain class of the community seem to take delight in exhibiting. In many cases this has taken so deep a root in the early days that its extermination is now a matter of all-absorbing interest. Brandon, in this respect, was in fair way to become a fitting companion to many of these places, owing to its rapid growth, without any civic power to exercise authority. Immediately, though, upon its incorporation as a city and the election of a mayor and aldermen, the iron heel of British law is placed upon its neck, and its influence will be most salutary, no doubt. A police court for the disposal of the cases that may be brought before it, is held every morning at 10 o'clock. As no police magistrate is yet appointed, Mayor Daly presides, and we are highly pleased to state in a manner that shows he is bound, whether he makes friends or enemies, to deal with every case that comes before them to the utmost rigor of the law. Any elementof rowdyism will now receive a most decided check, and in the fulfilment of his duties our energetic young mayor will find that it will be upheld by every citizen who has the welfare of the place at heart. In the performance of his civic duties he is ably assisted by the local magistrate and the police officers.

CITY COUNCIL.

Council Chambers, July 13.

Council met at half past eight. Present,—His Worship the Mayor, Ald. Horne, Fortier, Lockhart, Pilling, Evans, Winters, Sifton, Brock and Winter.

Minutes of previous meeting read and signed.

A communication was read from Hugh R. Cameron complaining of obstructions on lane in block 77.

It was moved by Ald. Winter seconded by Ald. Sifton that the Board of Works be empowered to remove, after two weeks notice, any tents, houses or other obstructions in streets or lanes within the city.—Carried.

An application for appointment as Overseer of Public Works was read from Donald McIntyre. Referred to Board of Works. Also a petition from E. Hodgins and 120 others praying the council to grant liquor licenses.

On motion of Ald. Winter, seconded by Ald. Lockhart, the petition was referred to the city solicitor with a request that he communicate with the Attorney-General to ascertain the true position of the council with reference to the question of liquor licenses.—Carried.

The Mayor, on behalf of Ald. Buchan, chairman of the Finance Committee, reported that a meeting of the committee had not been held, owing to absence of members. That plans and specifications of Fire Hall, Council Chambers and Lockup had been obtained from Mr. G. McD. Lang, architect.

Plans and specifications were referred to Board of Works with instructions to advertise for tenders for construction of building.

The applications of Mr. E. Martindale and Mr. D. M. McMillan for the position of City Clerk were read.

The vote being taken by ballot, the application of Mr. Martindale was accepted and that gentleman received the appointment.

The by-laws confirming the appointment and defining the duties of the City Clerk, City Solicitor, Chief of Police and Police Constables were passed.

By-laws confirming appointment of City Chamberlain and Collector were referred back to the solicitor for the addition of clauses providing for the giving of bonds. The amount of security for each of these offices was fixed at $5,000 from the official and $10,000 each from two securities.

Moved by Ald. Horne, seconded by Winter, that all accounts due by this council shall be presented to the chairman of the committee by whom the indebtedness charged was incurred, and the chairman of the committee shall at once certify the same to the chairman of Finance committee. The Finance Committee shall thereupon report all accounts certified to them as correct, or otherwise to the council at its next regular meeting; and no account shall be paid unless so certified, reported to the council and recommended to be paid by the council.—Carried.

Moved by Ald. Fortier, seconded by Ald. Horne, that this council having heard with pleasure of the appointment of the Hon. D. M. Walker as Judge for the Western Judicial District, it be resolved that this council respectfully request His Honor the Lieutenant-Governor-in-Council to locate the seat of the said Judge at Brandon, and that a copy of the resolution be forwarded by the City Clerk to His Honor, together with the assurance that every requisite accommodation for the holding of the court will be temporarily provided by the council of the City of Brandon—Carried.

The removal of the County Registry office from Millford to the city, and the providing of suitable accommodation was considered, when it was moved by Ald. Winter, seconded by Ald. Fortier, that a committee consisting of His Worship the Mayor, Ald. Lockhart and the mover and seconder be appointed to meet with the County Council at its next session to ask their co-operation in having the Registry office removed to this city.—Carried.

Council Chambers, July 17.

Council met pursuant to adjournment. Present—Ald. Winter, Sifton, Brock, Pilling, Evans, Smart, Fortier, Horne and Buchan.

In the absence of His Worship the Mayor, Ald. Winter was requested to occupy the civic throne.

Minutes of previous meeting were read and signed.

A communication was read from A. Monkman, enclosing account for expenses in connection with the incorporation of the city—referred to the Finance Committee; an account from Will. J. White for printing, &c, was similarly disposed of.

The Board of Works reported recommending:

1. That the application received for the overseeing of Public Works be laid over for further consideration.
2. That public notice be given through the press to all parties having buildings or other obstructions on the streets or lanes within the corporation to have the same removed within two weeks from the date thereof, and that the city clerk draft the notices necessary to be served on those against whom complaints have been made.
3. That the plans and specifications (of the Council Chamber and Fire Hall) as altered and amended be adopted, and that the architect advertise for tenders at once.

Ald. Horne moved, seconded by Ald. Evans, that the report be adopted.

It was moved in amendment by Ald. Pilling, seconded by Ald. Fortier, that for the present only those buildings on streets or lanes against which complaints have been made or those that may interfere with the Board of Works shall be removed. Ald. Pilling opposed the summary way of dealing with the matter recommended by the report.

Ald. Evans said the committee was only exercising the authority given it by the council at the last meeting.

Ald. Buchan thought notice should be given through the press to prevent trouble arising in future from parties hereafter placing obstructions on the highways.

After others had expressed their opinions the amendment was lost and the report adopted.

The chairman of the Finance Committee reported that the committee had not been able to complete their business but would report next meeting.

Ald. Lockhart took his seat.

In reply to the enquiry of Ald. Buchan, Ald. Evans, chairman of the Fire, Water and Gas Committee, stated that a meeting of the committee would be held before the next meeting of council, when the question of purchasing a fire engine and providing fire protection would be considered.

The consideration of By-law No. 7 to confirm the appointment of And. Waddell as Assessor and Collector was resumed. The by-law was discussed in committee of the whole, Ald. Buchan in the chair, and finally passed.

A by-law to license, regulate and govern hawkers, peddlars and transient traders was read a first time and laid over for two weeks.

Ald. Lockhart drew the attention of the Board of Works to the flooding of a portion of Pacific avenue by the water from the Vivian estate.

Ald. Horne replied that the City Engineer had the matter in hand.

In reply to Ald. Buchan, Ald. Evans said that the City Engineer would have estimates of the proposed public works ready for next meeting.

Council adjourned until Thursday evening at 8 o'clock.

COMPLETE RETURNS.

Selkirk Election.

The result of the polling in Selkirk was declared in the City hall, Winnipeg, on Tuesday at noon by J.P. Alexander, Esq., Returning Officer. All polling places have now been heard from. The following are the respective majorities:

	Mulvey.	Sutherland.
Brandon		23
Elton		21
Turnbull's		35
Flat Creek		4
Turtle Mountain City		28
Souris City		29
Langvale		61

MANUFACTURERS OF THE

CABLE BARB WIRE,

which is made from the best English Bessimer Steel.

The only Manufactory of Barb Wire,

FENCE POSTS, STAPLES, ETC., IN THE NORTH WEST.

The Barb is made from a flat piece of Steel which has four points projecting in as many directions, and is very much stronger than the Wire Barb. See above cut.

The galvenizing is now done after the Barbs are set and the Wire twisted, consequently the Barbs are firm and cannot be moved out of place. It is also far more durable than Ontario Barb Wire as the surface or zinc is not cracked or broken by twisting.

EXAMINE IT FOR YOURSELF.

Nos. 16 and 18, Thistle Street,

WINNIPEG, - - - MANITOBA.

THE BRANDON SUN.

BRANDON, MANITOBA, JULY 20, 1882.

GONE DOWN.—On Tuesday morning Chief McMillan escorted McColl to Winnipeg.

HAYING.—Haying in this section has commenced in good earnest, and a large quantity of it will be put up in the next few days.

INDIGNATION.—Considerable indignation is evinced by the settlers in the neighborhood of Alexander by the removal of the depot from the point at which it was first located.

TWICE A WEEK.—In future the Plum Creek settlers will be favored with postal facilities twice a week instead of once a week as heretofore.

THE GOSPEL TENT.—The gospel services in Squier's tent is becoming the centre of attraction. The services on Sabbath and during the week were largely attended and good is being done.

THE BAND.—The City Band has been practising hard during the past week, and on Saturday evening, for the first time will perform publicly on the corner of Sixth street and Rosser avenue.

SURVEY COMPLETED.—Mr. T. Warren, D. L. S., has just completed the survey of townships 9 and 10, ranges 27 and 28, the whole work only occuping about five weeks.

SMASHED.—The presence of a man named McConnell at the Police Court on Saturday evening with a smashed head was the result of whiskey and a street fight. He was remanded till to-day, when he and two other men named Macdonald and Jones will appear with him.

APPOINTED.—Rev. Mr. Williams, of New Brunswick, has been appointed as colleague to Rev. T. Lawson, pastor, in the Methodist church here. He is now on his way. Rev. John F. Betts goes to Birtle.

LARCENY.—Alex. McColl, when dismissed from the Kelly House about the 1st of April, not receiving from the landlord any other token of appreciation for his presence than his unpaid board bill, for the purpose of having something tangible by which to retain fond recollections, in a moment of abstraction, took with him a pair of blankets, belonging to the house. Before Squires Sifton and Winter on Monday last he confessed to the crime, and was sentenced to 30 days in gaol.

THROWN OFF AND HURT.—On Saturday evening, a man named Burns was driving down Rosser avenue on a load of lumber at a rapid gait, and when passing over a crossing at 7th street, he was thrown off the load, and striking a stone was rendered insensible. He was at once removed, his head being badly cut, and soon revived. It is hardly necessary to state that it was the amount of whiskey Burns had imbibed rather than the impetus given him at the crossing that threw him from the load.

NO TRICKERY.—In conversation with a SUN reporter the other day, a master painter said, "You can tell your readers that we can no longer say there is no trickery in any trade but ours. Why, do you know, a few of us are now off work, on account of the low figure at which work is being done." On enquiring into the cause, we learned that some of the painters instead of using oil and lead for painting, substitute lye, coal oil, and whiting, which can be put on by any whitewasher, to look well enough for a few weeks, but the action of the weather soon makes the building look worse than before it was touched. It would be well for those who are now building or contemplate doing so, to observe whether they get lye or oil, lead or whiting.

THE RING GAME.—Chief McMillan, a few evenings since, stopped the game of Boyd and his companion, who for some weeks have made this place their home, and, without doing anything, were always possessed of lots of lucre. On the evening in question, a young man came to the chief and told him that he had been made a victim to the ring game, at the same time showing him a massive gold wedding ring, upon which he had loaned $5. Having had it tested, it proved to be the purest brass. The Chief accompanied the young man to the hotel at which it was supposed the sharpers were stopping, and on seeing their victim—Sharper No. 1 stepped forward and said he could now redeem that ring. By the man of law they were, however, ordered to refund the $5, and he kept the ring, and ordered them to leave the city at once. This, we presume, they did, and, as the Chief sent a description of the men to the Portage and Winnipeg, it is expected they will meet with but little success in Manitoba. The same pair also play the "lock game."

REAL ESTATE.—During the past week several sales of property have taken place in the city, and evidence is not wanting to convince us that there is now a healthy demand for property. Because it does not change hands as rapidly nor at such advanced profits as it did during last winter and spring is no ground upon which to base the assertion that the "bottom has fallen out." There is now a healthy demand for business stands and sites for dwellings, for which good prices are to be had, and on which even very large profits are yet to be made. "The boom," in this city, therefore, is by no means over, as property here is yet at a low figure, when the present and future importance of our young city is considered. During the past few days some sales of Rosser avenue property have been made at fair prices. Mr. G. B Angus sold lots 32 and 33, in block 38, to Mr. S. J. West, for $600 each. Mr. McEchnie, sold a lot on 9th street, between Rosser and Pacific avenues, for $1000. Mr. Hugh Cameron sold lot 9, block 62 (23) to Mr. Dolmage for $1,200. A building is to be erected at once on this lot for business purposes.

NO SERVICE.—In consequence of the dedication of the new Methodist church, no services will be held in Rev. G. C. Squier's Gospel Tent at the regular hour of worship, but services will be conducted at 2.30 and 8.15 p. m. Mr. Squier will be assisted by the Rev. R. Mackay. The gospel singers will conduct the sacred services afternoon and evening.

On account of the above arrangement Mr. Mackay will not hold his regular services until the following Sabbath.

THE FIRST.—Two young men named McCuaig and Barber were the first to appear before His Worship the Mayor for infraction of the city by-law, and they were each fined $5 and costs for creating a disturbance on the corner of 7th street and Rosser avenue on Friday evening last.

EAST BRANDON wishes the party who borrowed the whiffletrees from his plow, to return them as soon as convenient, as he wishes to resume his breaking.

THE WORK.—On Sunday last, there were seven places of worship open here, and all of them well attended. This number comprised the Church of England, the Presbyterian, the Methodist, the Roman Catholic, the Congregational, the latter being held in the large tent at the rear of Dr. Flemings drug store under the ministry of Rev. Mr. McKay, late of Kingston, Ont., and the Gospel Tent Twelfth street.

IMPROVED.—The Board of Works have their hands full just now. Rosser Ave. is receiving a large share of attention, and before many days it will present a fine appearance, the gullies being filled up and the crossings levelled. Sixth street has been graded its entire length by private subscriptions, and a large drain has been dug along 5th street from Victoria avenue to Pacific avenue, which is working splendidly, and will soon have the sluice pretty effectually drained.

FIRST TRIP.—Mr. D. G. McLaren, representing the well-known wholesale dry goods establishment of Messrs. John Macdonald & Co., of Toronto, is making his first trip through this Province, and is meeting with such success that the firm is considering the advisability of establishing a branch house in the Province. If this is not done their genial representative will continue to make periodical calls on his patrons every three months or so.

SALES.—The demand for city property seems to be increasing. In addition to sales mentioned elsewhere, Miss Bristol has purchased from Mr. J. W. Horne a lot on Rosser avenue opposite the old post-office, and let to Mr. G. B. Angus the contract of a large two story block. A lot on 7th street, south of the Albion Hotel, was sold on Saturday for $1,200, and lot 16, block 9, Wooworth estate, changed hands at $575.

DON'T PUBLISH.—On Saturday last three or four young men, whose names appear elsewhere in these columns, called upon our reporter and requested that their names be omitted from the Police Court notes. The fact of their names being published is evidence that their request was not granted. We might here state for the benefit of future lawbreakers that the effort made in the asking of such favors be spared for some other purpose, as we believe that publishing of the Police Court reports will assist the Mayor, the Magistrates and the other peace officers in the righteous work they have so ably commenced in checking the lawlessness which was just on the eve of taking possession of our young city.

JUSTLY EARNED.—On Saturday evening last, Chief McMilian, after endeavoring by persuasion to have a young man named D. McInnes to leave the street with his team, which he was driving immoderately, himself being under the influence of liquor, arrested him for obscene and abusive language. There being no lock-up or place in which to keep him until Monday morning, he was at once tried before the Mayor and fined $5 and costs, and, having conducted himself very unseemly in the court, was also fined $5 for contempt of court. Mayor Daly at the time warned the prisoner and all present that he was bound to place upon every one guilty of misdemeanor the strongest finger of the law, and they would be fined to its utmost limit. He was associated on the bench by W. Winter, Esq., J.P.

CRICKET.—The Cricket club of the city having opened the season's play by achieving a victory over their worthy foemen of the Portage on Dominion Day, are to have a series of contests in which to test their claim to the foremost place. Three matches have been arranged for, to be played here, viz., with the Rapid City club on Saturday first, the Portage on Saturday, 29th, and the Plum Creek one week later. We trust the club will maintain its already enviable reputation and that the citizens will in every way assist them in entertaining their visitors in a manner befitting their position—as conquerors, shall we say. Any person wishing to join the club or aid them in their efforts to promote the manly game in our midst, can do so through Mr. C. G. Johnson (of the firm of Burnett & Johnson), the Treasurer, or can communicate with him at Box 22, post office. We trust that our citizens will give the club the support it deserves, and we wish them every success in the coming matches.

PERSONAL.—Mr. A. N. Molesworth formerly resident engineer of the C. P. R., has removed to Toronto for the present. In him Brandon loses a most valued citizen and an esteemed friend of all who know him, and it is to be desired that he will make his stay in the east only temporary.

Mr. Frank Burnett, of the firm of Burnett & Johnston, left on Monday for a business trip to Montreal, to extend over some five or six weeks.

Mr. James Robb, late proprietor of our contemporary, the Stratford (Ont.) *Herald* is spending a few days in town on his way southwards.

Mr. Berryman of the firm of Ross, Killam & Haggart, Winnipeg, was in the city on Saturday and spent Sunday here.

Mrs. James A. Johnston arrived home from the east on Saturday evening last where she had been visiting her friends.

Ald. James Smart, the hardware man, paid our sister city a visit last week, and returned on Monday evening accompanied by his father, James Smart, Esq., of the Smart Manufacturing Co., Brockville, Ont.

James Laidlaw, Esq., M. P. for South Wellington, Ont., is stopping at the Transit House, and goes west to take up land.

W. McCandlish, of the Brandon Hills, interviewed the county council yesterday with regard to the sloughs between this city and the Brandon Hills, and requested their attention to the matter at once, as at present the numbers who go over this trail to the Turtle Mountains find it very troublesome in those places.

PERSONAL.—Mr. George Samwell, of Exeter, Ont., accompanied by Mr. T. Seldon, of Ingersol, has been spending a few days in the city. On Monday evening last they went further west. Mr. Proctor of the Drayton *News Era* has returned from the west looking hale and hearty. Mr. R. Anderson, who went east to vote for his brother, a good Conservative who ran in North York, has returned. With Mr. Anderson's hosts of friends in this country, we are sorry to hear of his defeat, as in him Manitoba would have one of its ablest champions, his long experience here and deep interest in everything pertaining to it, giving him much room for the exercise of his able judgment.

Mayor Daly went to Winnipeg on Monday morning last and returned last evening.

The Rev. George Roddick, warden of the municipality of Brandon, and councillor Scott, were in town attending to municipal matters. They represent the crops around Brandon Hills and the Souris Valley presenting a magnificent appearance. The area under crop in these localities during the present year is very large, while fully as much is in course of preparation for next spring. Picnic parties are the order of the day, and the blue hills of Brandon are becoming a favorite resort; for which they are famous.—Winnipeg *Free Press*.

The following locals were crowded out of last week's issue:—

PERSONAL.—Mr. Ganyreau, of the Turtle Mountain Land Office passed through town yesterday on his return from Winnipeg, where he had been enjoying a short respite from the arduous work of attending to the myriads of settlers in "the Garden," during the past year or so.

Miss Wright and Miss Fortier, of Ottawa, are on a visit to friends in the city, and are stopping with Ald. Fortier.

Mr. R. D. Conger has gone east to his former home in Picton, Ont., for a few weeks. A pleasant trip and speedy return.

Mr. John Halpin, managing clerk in Dr. Fleming's drug store, left on Tuesday on a business trip to Toronto. He will probably mingle a little of the confection of pleasure with his drugs.

Mr. James Eaton, of London, Ont., who has large interests here, has been spending a few days in the city. His impression, like those of Mr. Poole, of St. Marys, who arrived on Monday last, see that nothing can now prevent Brandon from becoming a large and prosperous city.

Mr. A. Smith, of Goderich, Ont., who has paid our young city a visit, was agreeably surprised at its fine appearance, and may return and establish a business here.

A. L. Sifton, B. A., is on the sick list. His many friends look for his speedy recovery. Since the above was written, Mr. S. is able to be about, and gave us a call this morning.

A LIVELY CORPSE.—A good average sensation was given birth last Saturday morning by a report that a man had been found dead somewhere on the prairie. Towards evening the efforts of the police and others were rewarded by a full and apparently reliable statement of the facts. The unfortunate individual was a young man well known in the city, and the mortal remains were on exhibition at a farm house about ten miles south. This information was conveyed officially to one of the city coroners, who in turn notified witnesses, and early on Sunday morning the coroner, a special constable, a SUN reporter, and a democrat, filed out of town in grave procession to take possession of the body and arrange for an inquest. 'Twas a solemn hour. The circumstantial evidence was considered, and the probable verdict discussed in a suppressed whisper by the way, and a full column report was mentally arranged by the reporter in a style befitting the event. About three o'clock in the afternoon the faithful servants of the law returned, without the body they had gone after. The gravity of the occasion and their countenances deterred curious enquirers from ascertaining the details of the burial, and their reticence was revered until one of them, in an unguarded moment, admitted that they could have held an inquest all right but he was afraid they might not hold the body so easily. Finally, it transpired the supposed victim of exposure was able to meet the procession at the gate—stated his ability to prove by competent witnesses that he had not severed his connection with this mundane sphere, and protested against being conveyed to the morgue in an unsanctified democrat. The disappointed officials avow their intention of finding a subject, and have a detachment of police on the trail of the party who gave the misleading information that lead to the Sunday excursion to the Brandon Hills.

Caboose Chat.

General Manager Van Horne, Chief Engineer James and Supt. Egan remained here several hours on Sunday last, on their way east having been to the end of the track the week previous.

While here on Sunday last, General Manager Van Horne located the passenger depot some little distance west of the original site. Work will be commenced upon it as soon as the carpenters have completed the depots to the east, when the entire gang will be put at work.

The building now used as a round house is to be converted into workshops and a large roundhouse erected near the present one. It is to be built of brick.

The stations west have been re-arranged, and named. There will be a station every seven miles. Alexander, the 15 mile siding, is to be moved 1½ miles west of the present site; the next station will be a short distance east of Griswold, about 21 miles west of Brandon.

There are over 4,000 men and 2,000 teams at work on the main line west. The rails have been laid to a point 116 miles west of Brandon to which point also the telegraph line has been constructed. The grading is completed for some 30 miles further west, which carries the graders out of the wet lands which have hindered construction for some weeks. The stations have been definitely fixed and named west of Brandon as follows:—Brandon, Flat Creek, changed to Oak Lake, Gopher Creek, changed to Virden, Hargraves, Elkhorn, Fleming, Moosomin, after an Indian Chief; Red Jacket, Chanoopa, Burrows, and Whitewood, the present terminus of tracklaying, and to be made the end of the second division of the C. P. R., being 116 miles from Brandon. On the third division, the first station after Whitewood is Percival, and the second Broadview, named on account of the splendid view that is there obtained of the surrounding country.

Car 1646 still on the fly. Flat Creek to be heard from.

BIRTHS.

BOYDELL.—On Tuesday, the 18th inst., the wife of Rev. James Boydell, of a daughter.

DIXON.—At La Normandie, Millford, on the 21st June, the wife of Fitz Roy Dixon, of a daughter.

PROMOTION EXAMINATIONS.

BRANDON, MAN.

MALTA.

The above Town, situated in the centre o the very best portion of the far-famed Souris valley in Township 7, Range 22, West, is no paper town, but a BUSY, THRIVING BUSINESS CENTER. There are now in full blast a good general store, an hotel, a blacksmith and tin-shop, with eight or ten other business places in course of erection. A ferry boat has been placed on the river. Coal is found in abundance within the limits of the town. Wood is plentiful and the water good. The land adjoining the town and around it for many miles is the finest in the Province. The Souris, a stream nearly as large as the Assinaboine river, flows through the Town and the proposed Souris Branch of the C. P. Railway is located within one hundred yards of the present business center, thus giving to Malta advantages possessed by no other Town in the whole Souris district. To business men, hotel keepers, mechanics, and general dealers, Malta offers inducements surpassed by no other place in Manitoba—and remember we give a lot free to any one who will put up permanent buildings upon it. For full information apply to

The Crop Reports.

Below will be found the reports of the state of the crops in different localities in this district which have been forwarded to the C. P. R. The crops in other portions of the district not yet heard from are much better than they have been for years.

GRAND VALLEY.—R. I. Evans, post master, states there are 1,430 acres cultivated in the immediate vicinity, 520 in wheat, 600 in oats, 175 in barley, and 135 in potatoes. The present appearance of the crops is good, and the prospects of the harvest fair. We have 70 settlers here, thirty of whom have arrived since last January. The general feeling here is that the crop will not be an average one.

FLAT CREEK.—Here 1,500 acres of land are laid out in crops; 500 in wheat, 800 in oats, and 200 in root crops. There are 60 settlers here, the most of them have come in the spring. The weather being warm and balmy, grasses are growing vigorously. Every prospect of a good harvest.

GRISWOLD.—John Park, P. M., states 700 acres of land in crops this year—150 in wheat 500 in oats, 70 in barley, and thirty in potatoes. The crops are rather late, but are looking well, and the prospects for the harvest are good. There are sixty settlers in this township, fifteen being new comers. There will be over 1,500 acres broken in this season, not included in the above. This statement is only for township 10, range 22. All the travel for the Oak River district passes through this township.

PORTAGE LA PRAIRIE.—There are 15,000 acres of land under cultivation in this district: in wheat 6,000, in oats 8,000, in barley 850, and 150 in potatoes. The crops have an excellent appearance at present, and promise more than an average crop. We have 300 settlers here, 90 of whom have come in since January last.

MCGREGOR.—Here 500 acres are under cultivation 220 in wheat, 150 in oats, 65 in barley and 25 in root crops. The early root crops are looking well; those late sown require rain, but although there are good prospects for an excellent harvest. Thirty-eight families are settled here. Eight arrivals this spring.

SYDNEY.—In this district 1,000 acres are under cultivation, 600 in wheat, 250 in oats, 100 in barley and 50 in potatoes. The appearance of the crops is good, as well as the prospect for an abundant harvest. There are 400 settlers here, half of whom have come in this season.

AUSTIN.—There are 475 acres of land in crop here, 200 in wheat, 250 in oats, and the balance in barley and root crops. Notwithstanding the dry weather the crops are looking good, and should rain come soon I think the harvest will be good. There are about 17 families here; three or four have come this year.

CARBERRY.—Here 10,000 acres of land are in crop, 7,000 laid out in wheat, 2,000 in oats, 500 in barley, and 500 in potatoes. The crops are looking well and the prospects are good for the coming harvest. Over a hundred families are settled here; only a few new arrivals.

TURTLE MOUNTAIN.—A. N. Tregent reports about 15,000 acres of land under cultivation here. The present appearance of the crops is good with every prospect of an abundant harvest. There are about 1,500 settlers around here, and there have been over 3,000 entries made at the land office this spring. The country is all settled, and only railway lands not sold, and they would be if any justice was done to settlers, and so keep them from going across the line into the U.S.

OAK RIVER.—J. Little, Postmaster, reports 10,800 acres of land in crop this season, principally in oats and wheat. Owing to the dry season the crops are a little backward, but I consider that the yield will be an average one. We have 200 old settlers here and, over 450 new ones.

ROUNTHWAITE.—D. Rounthwaite states: There are 2,500 acres of land in cultivation; 1,200 in wheat, 1,170 in oats, 40 in barley, and 90 in potatoes. The crops at present want rain, yet they are looking healthy, and there is every promise of a fair harvest. There are 76 settlers here, 8 of whom have arrived this season. The most of the land in this vicinity was taken up before the survey was made, which accounts for so few new settlers.

SOURISMOUTH.—T. Clarke, postmaster, states there are somewhere about 2,000 acres under cultivation, one thousand in wheat, seven hundred in oats, two hundred in barley, and one hundred in potatoes. Owing to the cold weather and want of rain, the crops are very backward, but look well. The land is pretty well settled here, all of it being taken up.

NOTE FROM MR. HARDER.—Some difficulty has been experienced to obtain these spring reports, and only between forty and fifty places in Manitoba have been heard from. With few exceptions all are favorable and with continued fine weather, as at present, the harvest will be a beautiful one. It will be observed that the immense immigration we had this spring has moved west, and comparatively few have taken up land in the older settlements. Dominion and C. P. R. lands in the far west seem to have been the attraction. Next spring, or even this fall, accounts will be received of the progress made by the new comers.

WM. HARDER,
Assistant Traffic Manager, C.P.R.

Mr. McNaught, of Rapid City, has some wheat, late rowed, twenty-one inches high. It is looking remarkably well. He has also crown peas fifteen inches high.

Shoal, Ravin and Middle Lakes.

At a point about 50 miles from Brandon, following the main Saskatchewan trail, is to be found one of the most desireable places to locate a business to be combined with pleasure to be found anywhere throughout this North-West. There are three beautiful lakes, which stretch from north to south, and have an aggregate length of about ten miles. They are connected by a small stream known as Oak River, an affluent of the Assiniboine, which flows down from the Riding Mountain about 25 miles to the north. The water is very clear and spring-like, and abounds with fish of various kinds, which are said to bite beautifully on the troll and fly. In spring and autumn especially, wild fowl in great variety are to be found here in great profusion

Large and flourishing settlements radiate from here in all directions.

It is thought to be not improbable that the proposed Souris and Rocky Mountain Railway will pass quite near, if not touch immediately at this point. The same may also be said of the Portage and North-Western.

A new town site has been established immediately at the foot of Shoal Lake, to be known as Burlington, a very pretty location. Lots at present range from $25 to $100. There are at present two excellent openings for a grist mill and blacksmith's shop respectively. Liberal inducements will be offered to anybody who will engage in the enterprise.

S.S.S.

TOWNSHIPS AND RANGES.—The land in the North-West is surveyed into townships, about six miles square, and numbered in regular order northward from the international line between Canada and the United States, and they lie in ranges, which are numbered in regular succession westward of certain north-and-south lines called "principal meridians," the first being about fourteen miles west of Winnipeg. There are also certain ranges east of the first principal meridian. Each township is subdivided into thirty-six sections of 640 acres each or one square mile, and numbered as shown on the following diagram:

31	32	33	34	35	36
30	29	28	27	26	25
19	20	21	22	23	24
18	17	16	15	14	13
7	8	9	10	11	12
6	5	4	3	2	1

A man named McLeod was killed last week at Hawk Lake, some distance east of Rat Portage. He was assisting in hoisting a stringer of a bridge when the rope gave away, and the beam fell, striking McLeod on the back of the neck and killing him instantly.

It is rumored that Homer Smith, of Kincardine, Ont., is going to be sent to the North-West by the Dominion Government on an odd mission, to teach the Indians Gælic and the shorter catechism, and that he will bring with him six trunks chuck full of photos. of girls he used to flirt with in early life, to distribute among the different tribes.

BRANDON, MANITOBA, JULY 20 1882.

The State of Things in the North-West.

[Special Winnipeg Correspondence of the London, Ont., Advertiser.]

WHAT A POOR MAN CAN DO.

There is perhaps no other country in the world where a poor man, if he be honest, industrious and sober, can get along as well and make a comfortable home as fast as in the Canadian North-West. I took a trip to the Pembina Mountain country last week and was astonished at the wonderful progress of southern Manitoba in the past five years. I never saw such wheat fields in Ontario. As far as the eye can reach on the fine rolling prairie it is one expanse of dark rich green, of uniform growth, and so thick and even that the ground is entirely covered all over. One farm was particularly beautiful, and I drove up to the house to enquire about it. The owner told me his story, which is briefly as follows: He had lived for twenty-three years in Hamilton, and was barely able to support his family on the salary he was paid, though a first-class mechanic. Four years ago a misfortune threw him out of employment, and he determined to try his luck in the North-west. Leaving his wife and seven children behind he started out, and in a few weeks he had a shanty built on a homestead, with a pre-emption beside it, 320 acres in all. But he had no money to buy an ox team, so he broke up two acres with a spade and put in some potatoes and other vegetables. Then he worked on the railway for a few months and earned enough to pay for breaking up and back-setting a few acres, and to keep his family from starving at home. Many a weary night, he said, he passed in that shanty for two years, doing his own cooking, washing, etc.; but last year he was able to send for his family. He has to-day a fine frame house, good stables and granery, and 250 acres under wheat, besides a lot of excellent stock. He values his farm at $5,000, and confidently expects to have six thousand bushels of wheat this year. He says he would not go back to Ontario again even if the author of the N. P. would make him a present of the best factory there. But he had pluck and perseverance, and the trouble with a great many who come here, especially young men, is that they leave good homes behind and easy times, and too often the first difficulty discourages them. At least one-half of them expect to find things here as they left at home, after fifty years of hard labor. The most of English immigrants are even worse, if possible. I saw a party going out west the other day, with five guns and one plough. They should reverse the order and take five ploughs and one gun. They cannot shoot buffalo from the car windows as they expect when they leave home.

REAL ESTATE.

The election being over "down below," real estate has begun already to look up in the city, and we are on the eve of a lively time in legitimate speculation, but no paper town need apply. Fortunately, in future, it will be wholly confined to cities and towns on the railway lines whose prospects are assured. Although the fools are not all dead yet, very little money will be thrown away on worthless property hereafter. In the city, lots are in constant demand for actual building purposes, and changing hands freely again. A few sales made last week will give our readers some idea of the beginning of a boom. A leading wholesale house in Montreal wished to buy a lot on Point Douglass Avenue by the line of the C. P. R., so as to have a switch to their door, and sent one of their men up here to buy or build a warehouse on it. Like the most of new men, he wanted to beat down the owner, whose price was only $6,000, which was very low for it; but a speculator, who heard about it, bought it at once; and next day, the "party of the second part" paid him $10,000 for it, as no other lot would suit as well. Winnipeg property is on a sound basis, and when a bargain offers it should be snapped at once. Outside of Main street, lots can go up 50 per cent. and not be as high as in Toronto. Outsiders hear of exceptional prices paid for choice lots, and rush at general conclusions.

I was in a leading land office yesterday when a clever-looking young fellow came in and asked the price of a certain lot. The agent said $2,000. He threw down a handful of gold pieces, and told the agent not to make out the deeds for two hours. In a few minutes he returned and said he had re-sold the same property at $2,500, and ordered the deeds to be made out to the third party.

The Globe and the Reform Party.

The Bowmanville Statesman, a staunch Reform journal, has the following on the result of the elections: "This clearly sets forth Mr. Blake's views on the N. P., but the Globe has not advocated these views on the tariff, but has all along taken quite a different position. The Globe's action, therefore, served to intensify and perpetuate the opposition of the manufacturers, whose support and influence had no little to do in returning Sir John Macdonald and his party to power. Then, again, hundreds of professed Reformers voted for the N. P. in 1878. These men are by no means Conservatives, nor do they wish to be counted out of the Reform ranks, but the conduct of the Globe towards these men will not induce them to return to their party. A great many young men—mechanics and laborers—who voted for the first time at this election, identified themselves with the Conservatives and the N. P. party, and as first impressions are not easily removed, it is quite safe to count these against us in the future. It will take years of faithful and persistent effort and work to overcome the injury that has been done the Reform party by the Globe's action during the recent contest. We regret that it is necessary to speak so plainly against what is considered to be the leading organ of our party in Canada, but we speak our mind and the mind of many prominent Reformers."

In a western mine there is this advice: "Do not fall down this shaft, as there are men working at the bottom of it."

NOTICE.

Owing to the dissolution of the firm of Adams Bros., Brandon, the American Hotel property must be sold. This property is situated upon Sixth street convenient to railway, and being in the centre of the business part of the city, is a desirable property. The hotel is 25x60, 3 stories high, with kitchen in the rear.
Sealed tenders will be received addressed to Charles Adams, Box 1, Brandon, on or before
THE FIRST DAY OF AUGUST, 1882.
Full particulars will be given by applying at the house.
TERMS.—$1500 to be secured by mortgage, balance cash.
CHAS. ADAMS,
J.H. ADAMS, Norwich
26-3t Late of the firm of Adams Bros.

LOCKHART BROS.

SPLENDID CHANCE
—FOR AN—
ENTERPRISING MAN.
The subscribers are prepared to negotiate with parties wishing to purchase the whole or an interest in a first-class Mill Property in the Souris district. It consists of a two run steam Flour Mill and a steam Saw Mill of a capacity of 4,900 feet per day. In connection with the above, but as yet undeveloped, is an excellent site for a large water power mill building, where a head of forty feet could be obtained by constructing a short dam. The Souris River is navigable to this point, which is looked upon as the most likely crossing of the proposed railway through the Souris Valley.
A good Grain Market is already established here, and the Mills are kept running night and day to keep up with the contracts received from the West and the local demand. It is estimated that at the very lowes calculation fully 100,000 bushels of wheat can be purchased at this point the coming season, should necessary facilities for handling the same be provided. Good reasons furnished for wishing to sell and for fuller particulars and terms &c., apply to
BURNETT & JOHNSON,
Real Estate Agents, Brandon and Millford.
A BARGAIN.
Half section syndicate land, Souris District; first payment made; 25 acres in crop; yoke of cattle, reaper, seeder, land roller, two plows, lumber shanty, log stable, good well, wood within two miles; only $1,800. Apply to above.

ANDREW FREELAND,
BRANDON BOOK STORE.

PEOPLE APPRECIATE HIM!
PORTE WARAM,
Of the great ONE PRICE STORE, is doing a large and steadily increasing business.
The public is not slow to recognize the fact that he sells cheaper than any other house in town. The reason that PORT WARAM sells so cheap is owing to the fact that he buys all his goods for cash in the best market, and does a STRICTLY CASH BUSINESS. He does not believe in making cash customers pay bad debts that will occur in a credit business. (Facts are stubborn things, but you will be convinced that Waram's is the cheapest house in Brandon by comparing his goods and prices.
Bargains in everything at Port Waram's "One Price Store."
Remember the place, opposite the station on Pacific Avenue.
☞ Agent for the MICA AXLE GREASE.

Practical Watchmaker and Jeweler.

Wagons, Buggies, Springboards and Furniture.
JAMES HAMILTON,
Carriage Manufacturer, - - - Lindsay, Ont.,
Would intimate to farmers and intending purchasers of the above articles that he has opened a
Warehouse in Brandon on 8th St., between Rosser and Princess Ave.,
Where he is prepared to supply
Wagons, Buggies, Democrats, Springboards, &c.,
Which are made under his own supervision and of the best seasoned timber at the lowest figure.
Also a full stock of FURNITURE, manufactured by the Oshawa Cabinet Co.
Private residences, hotels and offices furnished on short notice.
H. ROSS, Manager, Brandon.

THE BRANDON SUN.

BRANDON, MANITOBA, JULY 20, 1882.

The following locals were crowded out of last week's issue:—

GONE DOWN.—Justices Winter and Lang sent Georgie Hart, a soiled dove, down for sixty days.

PETITION.—A petition is in circulation asking the city council to take steps towards the granting of licenses.

REAL ESTATE.—R. D. Conger a few days since sold a quantity of Rosser avenue property for $140 a foot, seventy-five feet deep.

RETURNED.—Charles Dobson has returned to his farm on the Souris from his visit to Winnipeg. He speaks well of the Souris country.

FOR THE EAST.—Ald. S. H. Bower has gone east for a six-week's visit. Mr. P. E. Durst goes east on Saturday next, combining business with pleasure.

A SPRAIN.—By a slip between the planks of the temporary sidewalk, Mr. Jno. Moblo, merchant, had one of his ankles badly sprained the other day.

HARNESS.—Messrs. Adams, of the American House have dissolved partnership, and wish to sell the hotel. They purpose going extensively into the harness business.

JUST FULL!—Messrs. Leask & Rose are daily receiving fresh consignments of goods, the many large contractors they are now supplying together with their large local trade, keeping a number of clerks extremely busy.

THE BAND.—The instruments have been given out to the members of the band, and under the able leadership of Bandmaster Blakely and Band Sergeant ———, we may soon expect to have something choice in the music line.

D.L.S.—Mr. Hart, D. L. S., formerly of St. Marys, Ont., has almost completed the survey of townships 9 and 10, rg. 21 and 22, west, and will shortly proceed westward to undertake a larger contract in the Qu'Appelle district.

CROWDED OUT.—On Sunday evening last, the school house, in which services have been held for some time by the Episcopal church here, was found to be entirely too small for the audience. It will be a pleasure on the first Sunday in September, when the new church will be opened.

TIMBER.—The saw mill company have an extensive boom across the Assiniboine at the mouth of the channel west of the island, for the purpose of guiding the logs now on the way from Shell into the mill run. Another boom has been placed across the channel south of the island, from which the ties that accompany the logs are drawn.

SOMETHING TO READ.—The Stolen White Elephant, one of Mark Twain's happy hits, is a clever burlesque on the police and detective system in many of the larger cities. The little book contains also the Legend of Sagenfeld, and a humorous chapter on the American language that will well repay a persual. May be had at the Brandon Book Store.

ILLEGAL.—A citizen who was aggrieved by the provisions of the "herd by-law" passed by the county council some time ago decided to test its legality in the courts, and the case came up before a bench of Magistrates on Saturday last. The dicision was in favor of the plaintiff owing to there being no penal clause attached to the by-law. It has since been remodeled by the council.

EXAMINERS.—Messrs. Thomas Speers and J. H. Brook, who are on a tour of inspection for the Government, making a close examination of the lands available for sale from the capital of Manitoba to Moose Mountain, and the district thereabouts, passed through the town on Monday. The examination tour will be critical and the report accurate, as no two gentleman better fitted for the work could probably be found.

THE COUNCIL CHAMBER.—The City Council has gone to work in dead earnest, and in order that they may be enabled to transact their business with some degree of comfort and credit to the city, have rented rooms in Jackson's block, corner Sixth street and Pacific avenue. The front room they have fitted up as an auditorium and Council Chamber, with tables, chairs, lamps, and complete outfit, including a handsome chair for His Worship the Mayor, who, by the way, presides with as much grace and ease as if he had occupied the position all his days. The rooms in the rear are used as band and store rooms.

FROM THE WEST.—Dr. Fleming and his friend Mr. H. Phiney (of Sackville, N. B.) returned a few days since from west of the Qu'Appelle. They report some portions of the country as being a fair average, but, during the whole of their extensive trip, they did not see anything to compare with Brandon's location or the country that surrounds it. Mr. A. C. Fraser and Mr. Geo. Draper, who returned on Thursday last, and who also made extensive examination of the country west, give a like report. The land is being taken up rapidly, indiscriminate squatting going on every day. Alex. McLaren, the real estate man, has gone west, and expects to locate on the best half section in the North-West.

THE CITY'S OFFICIALS.—At the second meeting of the Council that body appointed two constables, a chief, and an assistant, to whom they give $900 and $750, respectively. Mr. Waddell (of Goderich, Ont.,) was appointed Assessor and Collector at a salary of $1200 a year. Mr. Waddell, from what we know of him will be able to fill the duties most satisfactorily, having had much clerical experience. Messrs. Pondrier & Brownlee, to whom was given the position of City Engineers, at a salary of $150, are men of great integrtity, and to whom the city need have no fear in entrusting such matters as pertain to their profession. They are now hard at work, and under their careful supervision some very bad spots on Rosser avenue are now being carefully overhauled. Mr. Thos. Winter, the City Chamberlain, has had a clerical and financial experience which at once assures his capability of filling the position in which he has been placed. The City Clerk will be appointed this evening at the meeting of the Council.

DEDICATION AND TEA.—It has been decided to dedicate the new Methodist Tabernacle on 7th street, on Sunday the 23rd inst. Rev. Dr. Rice and Rev. Mr. Starr are expected to be present. A tea meeting will be held under the auspices of the Ladies' Aid Society on the Monday evening following. This will be the first public tea ever held in Brandon, and it is expected to be a grand success.

IMPORTANT CHANGES.—Mr. McBurnie, who is building the large mansion on the corner of 13th street and Lorne avenue, has written Mr. Smith, the contractor, from Paris, instructing him to cease work on his house until he arrives here, as he has several important changes to make in the plan. In the meantime Mr Smith has been instructed to build a large frame house on his farm section 25, township 9, range 20. Mr. McBurnie is one of the wealthiest men on the continent, and has a fine residence in Paris, another in New York, and will soon have one in Brandon. For years he was engaged extensively in the lace business, but owing to failing health, has been recommended the pure air of Manitoba.

On Tuesday last the bombardment of Alexandria by the British men-of-war commenced.
